QUARANTINE ORDERED

Secretary Wilson Proceeds Against New England Cattle.

SHEEP AND SWINE ALSO INCLUDED.

Action Taken On Account of the Discovery of a Highly Contagious Animal Known as Foot and Mouth Disease.

Washington, Nov. 27.—Secretary of Agriculture Wilson issued a sweeping order directed to the managers and agents of railroads and transportation companies of the United States, stockmen and others, notifying them of the establishment of a quarantine of cattle, sheep and other ruminants and swine in the New England states and prohibiting the exportation of such animals from the port of Boston until further orders.

Recent investigations in the department of agriculture disclosed the fact that what is known as foot and mouth disease exists to an alarming extent in Connecticut, Rhode Island, Massachusetts and Vermont. The expert of the department, Dr. Mohler; Dr. Leonard Pearson of the University of Pennsylvania, and Dr. James Law of Cornell university, investigated the infected districts and united in a recommendation that in order to prevent the spread of the disease a quarantine should immediately be established.

Secretary Wilson said that this is the most serious matter the department has had to handle for some time, but that all the resources of the department would be employed in stamping out the disease. He declared that if it should spread west of the Hudson river, it would be nothing short of a national calamity.

The Orders.

The orders, which are dated and numbered 99 and 100 respectively, are as follows: "To the managers and agents of railroads and transportation companies of the United States, stockmen and others: In accordance with section 7 of the act of congress approved May 29, 1884, entitled 'an act for the establishment of a bureau of animal industry, to prevent the exportation of diseased cattle, and to provide means for the suppression and extirpation of pleuro-pneumonia and other contagious diseases among domestic animals,' and with the act of congress approved June 3, 1902, making appropriations for the department of agriculture for the fiscal year ending June 30, 1903, you are hereby notified that the contagious disease, known as foot and mouth disease, exists among animals in the states of Connecticut, Rhode Island, Massachusetts and Vermont, and that the cattle, sheep and other ruminants and swine of said states have been exposed to the contagion of said disease; therefore, it is hereby ordered that, to prevent the spread of the said disease from the states of Connecticut, Rhode Island, Massachusetts and Vermont into other states or foreign countries, and to aid in its eradication, no cattle, sheep or other ruminants or swine shall be moved or be permitted to move from or across the territory of any one of the states named into any other state or foreign country. Any person, company or corporation violating this order will be proceeded against as provided for by the act of congress above referred to. It is hoped that all transportation companies, cattle shippers and others interested in the welfare of our animal industry will co-operate with the department of agriculture in enforcing this order, to the end that the restriction on traffic may have the desired effect and be removed in the shortest possible time.—James Wilson, Secretary."

"Whereas, a highly contagious disease, known as foot and mouth disease, exists among cattle in the state of Massachusetts, and the routes of transportation possibly may have been contaminated, and in order to protect the export trade in live animals by preventing the exportation of animals which are diseased, or which have been exposed to disease, it is hereby ordered that no cattle, sheep or other ruminants or swine shall be permitted to be exported from the port of Boston until further orders.—James Wilson, Secretary."

Amicably Adjusted.

Chicago, Nov. 27.—The hoxmakers' union concluded a peaceful agreement with the Box Manufacturers' association after negotiations extending over three weeks. An agreement was signed by which 700 men will get increases in wages amounting to \$52,500 a year. About 1,500 men are bound by its provisions. The contract goes into effect Jan. 1, and extends over a year.

STREET CARS COLLIDE.
One Got Beyond Control on a Steep Grade—The Casualties.

Des Moines, Nov. 27.—Two persons were fatally injured and six seriously hurt in a streetcar collision at the foot of Sixth street hill here. The streetcar got away at the top of a hill and crashed into another car at the bottom, six blocks away. The runaway car telescoped the second car and darted into the entrance of Lawrence's drug store, where it was checked by an iron post. Although both cars were crowded with passengers, most of them escaped by jumping. When the debris was cleared away Mrs. J. H. Frawley was found under a stove.

The fatally injured: Mrs. J. H. Frawley, crushed, internal hemorrhages; Helen Frawley, 10, spine wrenched. Seriously injured: Mrs. J. J. Fox, F. P. West, Mortorman Klein, unknown boy, James Kirkwood, Julius Shane.

Movements of the Fleet.

Culebra, W. I., Nov. 27.—Since the arrival here of Rear Admiral Higgins' fleet, the blue jackets of that command have been engaged in cutting a canal across the narrow neck of land which separates Great Harbor from the larger bay, thus affording easy passage from one harbor into the other. The Panther, with 500 marines on board, who have been doing guard duty in the Isthmus of Panama, has arrived and was placed in quarantine as a precautionary measure. When it is thought safe her detachment will join the 700 now in camp, forming a full regiment, which will take part in the coming operations. The torpedo flotilla of seven vessels has arrived from Juan and gone to its berth in Great Harbor, where the vessels will be made ready for duty as scouts in the search problem.

Young Morgan's Statement.

London, Nov. 27.—J. Pierpont Morgan, Jr., issued the following statement: "The circular issued by the International Mercantile Marine company, offering 4½ per cent mortgage bonds in lieu of cash payment to the shareholders of the White Star line, was merely issued in response to the inquiries of shareholders who wish for the immediate investment of the proceeds of the sale of their shares. By arrangement with the syndicate managers in New York the shareholders can be paid in bonds if they wish, but every one desiring gold payment of their holdings can get it Dec. 1 at this office."

Railway Deal.

New York, Nov. 27.—Unless pending negotiations fail, a large share of the Pere Marquette railroad, in Michigan, with the Lake Erie and Detroit River railroad, which was recently acquired by the Pere Marquette, will come into new hands during the first week in December. It is expected that options to take over a block of 70,000 shares of stock then will be exercised. A syndicate composed chiefly of St. Louis business men is said to be interested in the purchase and it is not known whether the syndicate acts for itself or in behalf of a railroad.

Bank of England.

London, Nov. 27.—The weekly statement of the Bank of England shows the following changes: Total reserve decreased £92,000; circulation decreased £15,000; bullion decreased £107,251; other securities increased £3,482,000; other deposits increased £1,226,000; public deposits increased £2,185,000; notes, reserve, decreased £56,000. Government securities unchanged. The proportion of the Bank of England's reserve to liability is 42.65 per cent. Last week it was 45.77 per cent. Rate of discount unchanged at 4 per cent.

Went Over an Embankment.

Granville, Ills., Nov. 27.—While rounding a curve at high speed a Jacksonville and St. Louis passenger train plunged over an embankment a distance of over 30 feet, and 10 persons, two of whom may die, were injured in the wreck. An overturned stove ignited the debris and many pinned passengers were severely burned. Conductors Carter and Clyde McRae were so seriously burned that they may die. It is expected the others will recover.

Americans Dine in London.

London, Nov. 27.—The American Thanksgiving dinner at the Hotel Cecil Thursday night was the largest affair ever planned here. The attendance exceeded 400. The chief speakers were Sir Robert Flinlay, Sir Edward Carson, H. H. Asquith, Ambassador Choate, H. Clay Evans and Sir H. W. Norman. Lord Rey, Lord Glenesk, Lord Denhigh and many prominent Englishmen were guests.

The Beautiful In Alabama.

Birmingham, Ala., Nov. 27.—Snow, the first of the season, began falling here early in the morning. It melted almost as rapidly as it fell.

LEADERS AGAIN AT IT

Collecting Evidence to Be Presented to the Strike Commission.

MITCHELL ARRANGING THE DETAILS.

More Light on the Sudden Termination of the Recent Negotiations at Washington—What the Independent Operators Say.

Scranton, Pa., Nov. 27.—President Mitchell, District Presidents Nicholls, Duffy and Fahy, and several of the other union officers who are here to attend the commission hearings have been in conference here arranging the details of the evidence to be presented when the commission reassembles next week. President Mitchell denies the report that the miners' executive board has been summoned for a conference.

The independent operators are pleased with the result of their recent conference in New York with the vice presidents of the coal roads. While admitting that they did much towards breaking off the negotiations for a settlement out of court, the independent operators do not hesitate to say that they were not required to advance much argument to bring the coal road presidents to their way of thinking. One of the independent operators' committee which went to New York has said: "The situation was like that in the story of the man who said, 'I would not drink unless you force me, but I suppose you are able to force me.' The big companies had come to our way of thinking before we met them."

Messrs. Darrow and Lloyd, counsel for the United Mine Workers, have issued a statement concerning the recent conference at Washington held between President Mitchell and Wayne MacVeagh, attorney for the operators. They clearly indicate that they think the coal road presidents acquiesced in Mr. MacVeagh's plan of settlement out of court and then repudiated him.

The statement is as follows: "The commission adjourned for 10 days in pursuance of an arrangement between the parties to give opportunity for conciliation on account of a telegram which we understood was written by George F. Baer, in the presence of and with the consent of every railroad concerned, and was signed by Wayne MacVeagh. This telegram was written after a careful reading of the tentative agreement which had been prepared and written by counsel of both parties, and which had been submitted to the commission. At the request of Mr. MacVeagh, Mr. Mitchell, Mr. Darrow and Mr. Lloyd went to Washington to consult upon some minor details of the agreement. There was no friction or important disagreement between the parties in the meeting in Washington. Later in the day and after the conference in New York with the independent operators, Mr. MacVeagh received a telegram calling off all negotiations and advising that the matter be settled by the commission in a regular hearing."

"A copy of the tentative agreement is in the hands of the Hon. Wayne MacVeagh, Mr. Wilcox of the Delaware and Hudson company, Carroll D. Wright and probably Mr. Baer. We can see no reasons for the expression of any opinion, the facts speak for themselves. We have been ready at all times to consult with any one in interest and make any reasonable adjustment, but we have no anxiety over the case whatever, or its results, and shall be ready for business when the commission meets."

President Commutes Sentence.

Washington, Nov. 27.—The president has exercised executive clemency in the case of Michele Clervo, who was sentenced in New York city to imprisonment for 10 years for counterfeiting. The sentence is commuted to expire July 1, 1905, which reduces his term of confinement about two and a half years. This action is taken in consideration of valuable information voluntarily given by Clervo to the secret service officials, which resulted in breaking up a gang of counterfeiters and capturing a number of sets of molds.

Hole Plugged.

Buffalo, Nov. 27.—A diver has plugged the hole in the steamship Sicilian, caused by striking some object in the St. Lawrence river at Belle Chasse, on the evening of Nov. 24, and the ship will sail again for Glasgow in a few days.

FEUDISTS' OUTBREAK.
Attempts to Kill His Wife and Daughter Before Suiciding.

Sneedville, Tenn., Nov. 27.—In Hancock county, in the mountains of upper east Tennessee, Richard Green probably fatally shot his wife and daughter in an attempt to kill them. He then shot and killed himself, using a shotgun. The discharge of the gun ignited his clothing, and when found his apparel was burned from his body. It is supposed jealousy or insanity was the cause of the deed. Green did the first killing in the Jones-Green feud, 10 or 12 years ago. Green's wife and daughter still live. It is thought they may recover, but the widow will lose one of her hands from the effects of the shot.

Roosevelt's Thanksgiving.

Washington, Nov. 27.—President Roosevelt observed Thanksgiving day by taking a long horseback ride into the country. Accompanied by Mrs. Roosevelt, his cousin, John Elliott; General Leonard Wood, Robert H. N. Ferguson, a former rough rider, and Douglass Robinson, he was driven to the outskirts of the city, where horses were awaiting. They left the White House at 10:50 a. m., and were attired for a hard ride. At night the president had a number of personal friends and relatives to dinner. Throughout the city the day was generally observed. Public business, except of the pressing nature, was suspended. The principal attractions were the races and the football game between Georgetown university and Carlisle.

American Medal Winners.

Rome, Nov. 27.—The annual distribution of medals to the students of the foreign ecclesiastical colleges in Rome was made by Cardinal Gotti, prefect of the propaganda at the college of the propaganda. The American medal winners were John Turner of New York, first medal for sacred theology; Joseph Kennedy of Philadelphia, second medal for logic, theology and canon law; Patrick Bresnahan of St. Augustine, Fla., second medal for moral theology, and Andrew Brennan of Scranton, Pa., second medal for canon law. John Cooper of Baltimore received a first medal and John Hartle of Brooklyn and Albert Burke of Cincinnati second medals for sacred archaeology.

Steamer Given Up For Lost.

Chicago, Nov. 27.—Marine underwriters are inclined to give the Canadian steamer Bannockburn up for lost in Lake Superior. It was reported to them that the missing steamer had been passed last Friday by the steamer Gonquin about 50 miles southeast of Passage Island and northeast of Keweenaw Point. That would bring the Bannockburn well out into Lake Superior, and right in the track of vessels. Since that time nothing has been heard of the steamer. It is supposed the steamer had stranded on Caribou Island. The Bannockburn carried a crew of 20 men, and the ship and cargo are worth \$200,000.

Bandits Rob a Bank.

Dallas, Tex., Nov. 27.—The First National bank at Morgan, Bosque county, was dynamited by robbers and \$5,000 in gold, silver and currency was secured by the burglars. The first intimation of the presence of the gang, believed to be three in number, was when a loud explosion was heard. Before citizens could reach the bank the bandits had secured the money in the outer safe and made their escape.

Battered by a Gale.

Hamburg, Nov. 27.—The German steamer Holstein, Captain Steinhard, from New Orleans via Bermuda, which arrived here on Nov. 26, reports having lost in a gale part of her deck load and had her bridge and deck much damaged and rail and stanchions broken.

Found Dead.

Lexington, Ky., Nov. 27.—W. W. Darnell of this city, prominently connected, was found dead in the Leland hotel. He was sitting on the side of his bed with all his clothes on and his elbows on his knees. A heart attack came presumably as he sat down to take off his clothes.

Andrew Carnegie's Condition.

London, Nov. 27.—The convalescence of Andrew Carnegie is reported to be progressing favorably. He has neither left his room nor his bed, but is reported to be doing well in every respect, and is anxious to return to America.

Bank of France.

Paris, Nov. 27.—The weekly statement of the Bank of France shows the following changes: Notes in circulation increased 5,000,000 francs; treasury account current increased 5,750,000 francs; gold in hand increased 5,100,000 francs; bills discounted increased 45,000,000 francs; silver in hand increased 425,000 francs.

GERMANY IN ACTION.

Three Additional Cruisers Ordered to Proceed to Venezuela.

WILL TRY TO COLLECT ITS CLAIMS.

Kaiser and John Bull Determined to Move Jointly Against the South American Republic—Will Not Infringe Monroe Doctrine.

Berlin, Nov. 27.—Three additional cruisers, the Niobe, Arding and Amazon, have been ordered to leave Kiel and proceed to Venezuela. They will sail as soon as they can be made ready for sea. Telegraphic instructions were sent to the navy department ordering their immediate fitting out and orders for the necessary supplies of ammunition and other equipment have been issued.

It is authoritatively stated that Germany and Great Britain have determined to take joint action to collect their claims against Venezuela. The two powers are in correspondence over the form of this action. No time can be named when they will act, because the respective foreign offices have not agreed on the details. It is understood that only slight differences exist regarding the course to be followed. It is confirmed here that the United States is fully informed upon the negotiations and knows that what is meditated will not infringe the Monroe doctrine. Diplomatic relations between Great Britain and Venezuela have not been severed up to the present time, though the foreign office would not be surprised if it was compelled to take a decisive step at any moment. Thus far Venezuela shows no signs of granting the reparation demanded.

Strike of Siberian Convicts.

Victoria, B. C., Nov. 27.—The steamship Olympia, from the orient, brings the intelligence from the west Siberian convict settlement that the convicts there have gone on strike, refusing all nourishment until they are more humanely treated. These unfortunates are mostly educated men, sentenced for political offenses. On the authority of a recent arrival from Siberia, it is stated that they are loaded with chains, herded in dark, unsanitary cells, and not taken out into the open air for weeks at a time. Infectious diseases have broken out among them. The convicts carried out the strike resolutely. On the third day many lost consciousness from fasting, but no sufferings induced them to accept food. The condition of convicts in the settlement of Koktchavsk is still worse. Desperate revolts there have been quelled only after much bloodshed.

Situation at Havana.

Havana, Nov. 27.—With the exception of the cigarmakers, all classes of laborers have returned to work and business generally has resumed its normal condition. The cigarmakers still have a few minor points under discussion. The authorities had begun to think that there was no fear of further disturbance, but there still remains a feeling of animosity in the hearts of some of the more demonstrative strikers against the motormen and car conductors, who are blamed for breaking up the general strike by their refusal to go out. Threats were made in outlying wards to do these men injury, and these menaces culminated at dark in an assault upon several cars. Shots were fired from rooftops and a motorman and two passengers were shot, the motorman being fatally injured.

New Mexico Entitled to Statehood.

Chicago, Nov. 27.—M. A. Otero, governor of New Mexico, who is in Chicago on business, believes that New Mexico is entitled to be admitted to the Union of states. "There is no reason on earth why New Mexico should not become a state," he said. "It has a population of 200,000 people, and we have wealth and education that entitle us to statehood. The real property values of the territory reach \$200,000,000, and the native Mexican population is fast becoming an educated and progressive factor in the community."

American Suicides at Paris.

Paris, Nov. 27.—Francis Roubel Bryan, an American, has been found dead in his room, shot through the heart, presumably by himself. He was 70 years old, and came originally from Philadelphia. About a fortnight ago Bryan consented to quit his apartment in the Faubourg St. Honore for a private sanitarium. He left the hospital last Thursday without notice to his relatives residing here and returned to his domicile. The body was found on Monday, but the greatest secrecy has been since maintained regarding the case.

MARSHALL WILL CASE.

Motion for a New Trial to Be Heard by Judge Hager To-morrow.

The attorneys for the will in the Marshall case have filed a motion for a new trial. By consent of all parties, Judge Hager will hear the motion on the 29th Inst. in Cincinnati. The Cynthiana Democrat says the course of Judge Hager, who presided in the recent trial, won the admiration of lawyers, litigants and spectators. Ablest attorneys exhausted every means possible to advance one side or the other.

The Democrat credits Mr. Harry Wadsworth of Maysville with the able defense. Mr. Wadsworth will have charge of the application for a rehearing. In this application it is alleged that the court erred in admitting immaterial, irrelevant, illegal and incompetent testimony; in excluding certain testimony and in refusing to give certain instructions.

OIL DEVELOPMENTS.

Detroit Syndicate Has Options in 33,000 Acres in Bath and Other Counties.

[Enquirer.]

Mr. G. Chiera and Father D. A. Mueller, of Detroit, Mich., are at the Munro on their way home from Eastern Kentucky, where they have been to look over the oil district. Mr. Chiera is interested in a syndicate that has options on 33,000 acres of land in Morgan, Lincoln and Bath Counties, Ky., on which oil has been discovered. Titles to the property are now being investigated by Judge W. W. Chapin, of Detroit, and as soon as his report is received by the promoters a \$600,000 company will be incorporated.

"We will buy leases of the oil and

gas privileges," said Mr. Chiera, "as soon

as we are assured good titles can be

given, and as soon as all preliminaries

can be arranged a company will be

formed and incorporated. Father Mueller

and I started out with a party of five to

go to the oil fields, but the weather

turned too disagreeable and we decided

to return home. The other members of

the party remained and will complete

the investigation before leaving. As soon

as the company is organized the work of

developing the oil and gas properties will

begin. We expect to have every detail

of the organization completed by the end

of this year."

About the King Dodo Company. The management of the Washington Opera House have been importuned a number of times regarding the merits and the people with King Dodo this season, and he to say to the public that the King Dodo Company

Myer, who played "Dodo" last season here, is playing "Mudge," "The Look in the Book," and see "Bonilla," "The Prime Minister to Queen Lili," and Miss Ruth Peebles, who played "Annette" last season, is the "Annette" of this company. Without further enumeration the company is a great deal better than before.

Last season the management did not get one penny from the receipts. Now

THE BEE HIVE

The Answer is-- We Pay More!

From tongue to tongue and from ear to ear the question is asked, HOW IS IT that Merz Bros. can sell a better shoe for \$3 than any other house in Maysville? The answer is we pay more for our shoe, we take less profit on our shoes because our EXPENSES are less. We don't pay any more rent because we sell shoes. We don't pay any more for light because we sell shoes. We don't pay any more for help because we sell shoes. We put the expense money in the quality of the shoes. So many people have asked us how it is that no stores here ever sold the QUEEN QUALITY SHOES when they are so well known the world over. The answer is that the PROFITS are not large enough to pay for rent, light and help, but they have to be sold in drygoods stores where large sales and small profits reign supreme.

RIVER NEWS.

Big Run of Coal Coming From Headwaters.
General Resumption of Navigation.

The marks here showed a stage of 11.7 feet this morning at 8:30.

The Annie L. passed down last night at 9 o'clock and left several barges of coal here and at Aberdeen.

The Keystone State passed up this morning for Pittsburg. The Queen City will follow her to-morrow night and the Virginian next Tuesday.

The BULLETIN's prediction Wednesday that rain at headwaters of the Monongahela would probably make sufficient water at Pittsburg to let out a shipment of coal came true.

The marks showed over nine feet at Pittsburg Thursday morning with the river still rising. The rise enabled the coal companies to make a big shipment of coal Thursday, and all further danger of a fuel famine is over for the present. It is estimated there were 20,000,000 bushels ready for shipment and much of this is now on the way. Over 1,000,000 will come out of the Kanawha.

COUNTY MEDICAL SOCIETY.

A Large and Appreciative Attendance at Wednesday's Meeting—Drs. McCormack and Wells Among Visitors.

The meeting of the County Medical Society Wednesday was conspicuously effective and gratifying to every member having at heart the perpetuity and success of the association, and it goes without saying that every member is embraced in this. Organized on 24th May, 1899, in the face of failures, if not just upon the ruins of worthy progenitors, the society has encountered the vicissitudes coming of existence, but, based upon an honest desire for intelligent progress, "with charity for all and malice towards none," it has lived and grown, is to-day as it was intended and desired to be, a standing committee of unselfish laborers for all that's best for mankind.

The unification of practical medicine on lines of "the greatest good to the greatest number" is being accomplished, in which our home association aspires to no more than its share of usefulness and will be content with no less.

Under the rulings of the last meeting of the American Medical Association, the county becomes the stepping-stone to the State and National—beyond which the American practitioner may well await events.

The presence of Drs. McCormack and Wells, the one Secretary of the State Board of Health and the other Councilor for the Ninth Congressional district, was in the interest of all this and so far most welcome and effective, as manifested by the resolution of thanks.

The attendance was exceptionally large, attentive and appreciative.

CHILDS-CABLISH.

A Worthy Young Couple Wedded Wednesday Evening at the Home of the Bride.

The marriage of Mr. Isaac Childs and Miss Katherine Cablisch was solemnized Wednesday evening at 8 o'clock at the home of the bride on Forest avenue, Rev. Dr. Barbour officiating.

The bride is a daughter of Mr. Jacob Cablisch, and was a popular saleslady at the Bee Hive for some time. The groom is one of the city's industrious young men. Their many friends extend congratulations and good wishes.

Mr. C. L. Sallee rested very well last night, and is thought to be showing improvement.

The suit brought by A. J. Lansdowne, a former Covington Waterworks Department employee, against Justus Goebel, was dismissed. Lansdowne affirmed that he had paid Goebel \$10 per month to secure his political position, but the testimony showed that the money was paid upon insurance policies held by Goebel for D. B. Bayless, Lansdowne's uncle.

THREATENS SUICIDE.

Officials at Covington watching Geo. Benz Who is Held for a Murder at Mayslick.

Says the Covington correspondent of the Enquirer: "George Bentz, who killed Saloonist Owsley at Mayslick, and who was lodged in the Covington jail with Alvin Burgess for the killing of fifteen-year-old boy near Flemingsburg about a week ago for safe-keeping, is either insane or playing that game strongly. He has been indicted for murder, and constantly keeps moving about his cell. The other prisoners have heard him remark that he would commit suicide if he had the opportunity, and they notified Turnkeys Fred Maurer and "Juice" Hughes of his actions. Bentz will not converse with the other prisoners, but seems to have a deep sympathy for "Bob" Brown, slayer of Nick Bodkin. A watchful eye is being kept on Bentz for fear that he may hang himself in his cell."

Dr. C. F. Evans and Rev. R. E. Moer. The sermon was by Dr. Evans, who pictured in eloquent and forceful words the many reasons why the nation should be thankful to the Giver of all good, the speaker closing with a strong denunciation of the evils that curse the land. The offering amounted to about \$31.

Everlasting Teeth!

The enamel of teeth is ten times harder than bone. If kept perfectly clean it could not decay in a century. Enamel will resist any amount of wear, but it can't resist acid. Certain germs that frequent the mouth convert the starch and sugar in your food into lactic acid. The acid makes the cavity.

Chenoweth's Dentine

Is antiseptic. It destroys the germs and prevents decay. This is the quality that most dentifrices lack, but is it not a most important one? Perfectly harmless. Delightful to use. Price 25 cents.

Laid to Rest.

On Saturday morning, Nov. 15th, there was laid to rest in one of the sunniest spots of the Maysville Washington Cemetery, the mortal of Mary Agnes, daughter of Mr. and Mrs. Martin Heflin of Maysville. A lovely young girl, scarce fourteen years of age, just budding into fair and beautiful womanhood, suddenly cut down after only a few brief days of illness. Surely the mysteries of God's dealings are incomprehensible and past finding out. A loving daughter, petted and beloved by her parents. The love of her mother, though she was but a child, was fair as the morning, with blue eyes like a summer sky, a heart full of joyous gladness, a pleasant word and kindly smile for everyone. She was beloved by rich and poor alike. No mission of mercy did she esteem to hard for her willing feet. Possessed of a voice of great sweetness, she delighted all hearts with her sweet songs. Like the singing of the birds in spring time, her voice would ascend to heaven from the fulness of a joyous heart. Like a bright winged butterfly, she flitted about the home where all things were made beautiful by the touch of her gentle hands. Alas! that such beauty and loveliness should blossom but for the tomb! After a few brief hours of suffering, the gentle spirit soared away to fairer mansions, leaving a deep sense of melancholy in many hearts who knew and loved her. Tenderly were the last sad rites performed. Loving friends brought the fairest flowers to line the casket and strew over her grave, but none among the bright coronal so fair as the sweet young face so early laid to rest. By her friend.

CARLISLE WM. HAYDEN,

Old Age,

Old age as it comes in the orderly process of nature is a beautiful and majestic thing. The very shadow or eclipse which threatens it, makes it the more prized. It stands for experience, knowledge, wisdom and counsel. That is old age as it should be. But old age as it so often is means nothing but a second childhood of mind and body. What makes the difference? Very largely the care of the stomach. In youth and the full strength of manhood it doesn't seem to matter how we treat the stomach. We abuse it, overwork it, injure it. We don't suffer from it much. But when age comes the stomach is worn out. It can't prepare and distribute the needed nourishment to the body, and the body, un nourished, falls into senile decay. Dr. Pierce's Golden Medical Discovery is a wonderful medicine for old people whose stomachs are "weak" and whose digestions are "poor." Its invigorating effects are felt by mind as well as body. It takes the sting from old age, and makes old people strong.

Taxation of Cemetery Companies' Funds. In a recent decision the Court of Appeals says in a case from Lexington:

This appeal involves the question as to whether notes, bonds and cash belonging to appellee, a cemetery company, shall be assessed for taxation. Appellant claims in defense that said funds are exempt from taxation under Section 179 of the Constitution and Section 4,028 of the Kentucky Statutes, which exempt from taxation "places of burial and institutions of purely public charity." Held—That while humanity and religion require that the dead shall be buried and their resting-places properly ornamented and protected, the "places of burial" will be exempted from taxation, but the same rule will not be extended to exempt bonds, bills and notes held by a cemetery company and same is subject to taxation.
